

Dear Parents,

Welcome to the Shurley Method—English truly made easy! It is with much excitement that we share some of the unique features that make the Shurley Method so successful. Because of your concern as a parent to help your child, this booklet has been designed for you.

With this Parent Help Booklet, our goal is to give you, the parent, a basic understanding of the Shurley Method. We hope it makes your job of helping and encouraging your child at home a little easier. This booklet will provide you with samples of the terminology and style of teaching that is used at school so that you can follow your child's progress at home.

The information in this booklet is divided into the sections explained below.

The Introduction Section: The first three pages in the Parent Help Booklet will give you an understanding of why the Shurley Method works, outlining the key features and main elements taught in each grade level.

The Jingle Section: English definitions are taught in jingle form. The rhythm of the jingles is a fantastic learning tool that helps students learn and retain difficult English concepts. Students love reciting the jingles and are taught how to use the definition jingles to help analyze the structure of sentences. The Jingle Section will provide all the jingles your child will learn during the school year.

The Question & Answer Flow Section: Students are taught how to ask the right questions to find the role each word plays in the sentence being analyzed. This technique is called a Question & Answer Flow or the Q&A Flow. The Q&A Flow is done in a rhythmic, enthusiastic manner, enabling children to actively participate in their learning. Children's participation builds their confidence, and they are able to solve difficult sentence structure without constant assistance. The Q&A Flow is a stepping stone to higher level thinking skills because children will be stimulated to learn and use their own thought processes to answer questions about words and sentences. Several Q&A Flows and sample teaching scripts to introduce new concepts are provided in this section.

Practice sheets, for the sentences in this booklet, are available in a separate file that can be downloaded.

The Practice and Improved Sentence Section: Students are taught how to write and expand sentences correctly by writing practice sentences from grammar labels. Students then learn to improve their sentences by using synonyms, antonyms, or other word changes to improve different parts of the practice sentence. Writing improved sentences will help students to mentally make better word choices as they write because their writing ability and their vocabulary increase.

The Writing Section: The Shurley Method teaches the foundation of sentence composition: how to write a sentence, how to improve and expand a sentence, and then how to combine sentences into paragraphs. Since the Shurley Method teaches the parts of a sentence within the whole, students always have a clear picture of what it takes to write complete and accurate sentences, resulting in well-written paragraphs, essays, reports, and letters. Some writing samples and outlines that demonstrate different kinds of writing are provided in this section. Since students are taught to edit their writing, the editing checklist is also provided on page 21.

Introduction Section

The Problem:

English. The very mention of this school subject brings shudders and moans from too many students. Why this attitude?

There are two reasons. First, many students hate and dread English because they are not successful in learning the concepts and rules they are taught. Second, a majority of students do not understand how to use the rules and concepts in their everyday speaking and writing. Since all students are required to take English for twelve years, it is essential that educators find a solution to this nationwide problem!

The Solution:

The Shurley Method is the answer. This program provides students with two important ingredients for success: a love of the English language and the ability to use the English language correctly with ease and confidence.

Why the Shurley Method?

For over twenty-five years, actual classroom situations and the learning needs of students have been used to develop this exciting English program. The features listed below show the advantages of the Shurley Method.

- **Never Teaches Isolated Concepts**
A concrete set of questions about each word in a sentence is used to teach students how all the parts of a sentence fit together. Students have a clear picture of how to write complete sentences.
- **Uses All Learning Styles**
Students are constantly exposed to “see it, hear it, say it, do it” activities that meet the visual, auditory, and kinesthetic learning styles of students.
- **Interactively Teaches During the Class Period**
The Shurley Method uses repetition, fun, and student-teacher interaction to help students learn difficult English skills. The teacher models each new step in the Shurley Method for the students. Then, the students actively participate with the teacher as the steps are practiced.
- **Uses Repetition to Attain Mastery**
The Shurley Method provides enough repetition for students to master each concept taught. Lessons include daily practice of old skills while new skills are being added.
- **Provides Tools for Writing Excellence**
The students are taught how to merge a strong skill foundation with the writing process. As a result, teachers can spend less time going over beginning grammar and editing skills and more time introducing and enhancing advanced grammar and writing skills.
- **Promotes Higher Order Thinking Skills**
Students use their grammar and writing skills automatically with dependable results. This leads to higher level thinking skills because the students are stimulated to learn and use their own thought processes to solve difficult language problems.
- **Leads to Success and Improved Self-Esteem**
The most important effect of the Shurley Method on students may not be their increased grasp of language and improved grammar and writing skills. Instead, the greatest impact may be the students’ heightened self-confidence and self-esteem. Not only do the students gain confidence in English, but they carry this improved attitude into other subject areas as well.

Special Features

All the special features of the Shurley Method give students the concrete steps necessary to relate a definition to a concept, a concept to a skill practice, and a skill practice to writing and editing. Competent writing begins with sentence structure, expands to paragraphs, and results in well-written essays, reports, letters, and general writing enjoyment.

A bonus feature of this unique program is the consistency of the terminology and skill practice exercises for all levels. In order to achieve this consistency for students, teachers at every level are given the same step-by-step teaching method for introducing and practicing concepts. This consistent teaching method helps students gain a solid foundation as additional skills are added at each subsequent level.

Jingles

The first element of the Shurley Method is the use of jingles. Students begin learning the parts of speech by reciting definitions in jingle form. These rhythmic definitions are chanted or sung by the class to help them initially remember the role of each part of speech.

Question and Answer Flow

In the Question and Answer Flow, an oral series of questions and answers determines the role each word plays in the sentence being analyzed. This is a classroom activity in which the teacher either leads, or supervises while a student leads. In this way, students are able to completely analyze the sentence. The Q&A flow includes questions for every word in the sentence. The difficulty level increases by grade level during the course of the year.

Sample Question and Answer Flow: Sarah read too rapidly for comprehension on the reading test today.	
1. Who read too rapidly for comprehension on the reading test today? Sarah – SN	10. The – A
2. What is being said about Sarah? Sarah read – V	11. Read when? today – Adv
3. Read how? rapidly – Adv	12. SN V P1 Check
4. How rapidly? too – Adv	13. (For comprehension) – Prepositional phrase
5. For – P	14. (On the reading test) – Prepositional phrase
6. For what? comprehension – OP	15. Period, statement, D
7. On – P	16. Go back to the verb - divide the complete subject from the complete predicate.
8. On what? test – OP	17. Is there an adverb exception? No.
9. What kind of test? reading – Adj	18. Is this sentence in a natural or inverted order? Natural - no change.
Classified Sentence:	SN V Adv Adv P OP P A Adj OP Adv
<u>SN V</u> P1	Sarah / read too rapidly (for comprehension) (on the reading test) today. D

The effectiveness of the Question and Answer Flow as a teaching technique is based upon several key elements:

- ◆ Each part of speech is analyzed within the context of the whole sentence. Parts of speech are never studied in isolated units.
- ◆ Once a concept is introduced, it is never left behind. As each concept is learned, it is repeatedly applied in daily exercises throughout the year.
- ◆ Much of the students' work is done in a group environment. This approach provides immediate feedback to the students in a non-threatening way. Students are able to learn, using not only visual but also auditory and kinesthetic learning styles. When students see, hear, and say their answers, retention increases.

Introduction Section

Sentence Building

(Level 6 teaches the eight parts of speech: noun, verb, adverb, adjective, preposition, pronoun, conjunction, and interjection.)

The Shurley Method uses grammar to teach students the structure and design of their written language. Grammar provides students with a writing vocabulary, and it is the foundation of sentence composition. Students learn to write good sentences by using the basic sentence labels they are learning in grammar (A, Adj, SN, V, Adv) and by adding other labels as new concepts are taught. These sentences, written from grammar labels, are called Practice Sentences. Students then learn to improve and expand their sentences by using synonyms, antonyms, or complete word changes to improve different parts of the practice sentence.

Practice and Improved Sentences

Labels:	A	Adj	Adj	SN	V	Adv	Adv
Practice:	An	angry	old	alligator	swam	forward	suddenly.
Improved:	The (word change)	perturbed (synonym)	ancient (synonym)	crocodile (synonym)	floated (synonym)	away (antonym)	disgustedly. (word change)

The Writing Process

In the writing process, students are taught to write for different purposes. After they know the purpose of their writing, students are taught to organize their writing according to its purpose, to keep focused on the topic, to revise and edit their rough drafts, and to write a final paper.

As students progress in the Shurley Method year after year, they become better able to apply their knowledge of skills to editing and writing. As a result, the teacher can then spend less time laying basic foundations and more time introducing advanced writing concepts.

Paragraph Construction

After students learn to construct a variety of good basic sentences, they learn to write different kinds of paragraphs. In the three-point expository paragraph, students easily learn how to write a paragraph by using topic sentences, supporting sentences, and concluding sentences. Three-point paragraphs make it easy for students to learn how to organize the parts of a paragraph and to develop these parts into effective paragraph writing. (An example of paragraph writing is provided on page 20. Guidelines for Writing paragraphs and essays are provided on page 21.)

Shurley Method Patterns

The pattern of a sentence is the order of its main parts. The patterns used at this level are listed below. (The Shurley Method abbreviations are listed on Page 7.)

The subject-noun and verb are the main parts of a Pattern 1 sentence.

(SN V)

The subject-noun, verb-transitive, and direct object are the main parts of a Pattern 2 sentence.

(SN V-t DO)

The subject-noun, verb-transitive, indirect object, and direct object are the main parts of a Pattern 3 sentence.

(SN V-t IO DO)

The subject-noun, linking verb, and predicate noun are the main parts of a Pattern 4 sentence.

(SN LV PrN)

The subject-noun, linking verb, and predicate adjective are the main parts of a Pattern 5 sentence.

The Question & Answer Flow Section

Parent Note: This is a General Question and Answer Flow Guide that will help your child remember the order of most of the questions used to classify sentences in the Shurley Method.

General Q & A Flow Guide #1 for Pattern 1 Sentences

To find the subject:

1. Read the sentence: ***The big dog barked loudly at the cat.***
2. To find the subject, ask the subject question “who” or “what” and read the rest of the sentence. (Ask the subject question “who” if the sentence is about people. Ask the subject question “what” if the sentence is not about people.) Label the subject with an “SN” abbreviation.

What barked loudly at the cat? Dog - SN (say “subject noun” not “SN”)

To find the verb:

1. Make sure you have marked the subject with the “SN” abbreviation.
2. To find the verb, ask the verb question “what is being said about” and then say the subject. Next, say the subject and verb together to make sure they make sense together. Label the verb with a “V” abbreviation.

What is being said about dog? Dog barked - V (say “verb” not “V”)

To find the adverb:

1. An adverb modifies a verb, adjective, or another adverb. Go to the verb first and ask an adverb question.
2. To find an adverb, say the verb and ask one of the adverb questions “how, when, or where.” Label the adverb with an “Adv” abbreviation.

Barked how? loudly - Adv (say “adverb” not “Adv”)

To find the preposition and the object of the preposition:

1. A preposition is a connecting word. It connects a noun or pronoun to the rest of the sentence.
2. An object of the preposition is a noun or pronoun after the preposition in a sentence.
3. A preposition must always have a noun or pronoun (an object of the preposition) after it.
4. To find a preposition, say the preposition word and ask the question *what* or *whom* to find the object of the preposition. Label the preposition with a “P” abbreviation and label the object of the preposition with an “OP” abbreviation.

At - P (say “preposition” not “P”)

At what? cat - OP (say “object of the preposition” not “OP”)

To find the article adjective:

1. There are three article adjectives: *a, an, the*. Article adjectives are also called noun markers because they tell that a noun is close by. Article adjectives must be memorized.
2. To find the article adjective, just memorize *a, an, and the* as article adjectives and say “article adjective” each time you see one of them in a sentence. Label the article adjective with an “A” abbreviation.

The - A (say “article adjective” not “A”)

To find the adjective:

1. An adjective modifies a noun or a pronoun.
2. To find an adjective, go to a noun or pronoun and ask one of the adjective questions: “what kind, which one, or how many.” Label the adjective with an “Adj” abbreviation.

What kind of dog? big - Adj (say “adjective” not “Adj”)

The Rest of the Q & A Flow

1. The - A
2. SN V P1 check. (The pattern goes in the blank. The check is to identify the other parts of the Q & A Flow.)
3. (At the cat) - Prepositional phrase.
4. Period, statement, declarative sentence. (Write a “D” at the end of the sentence.)
5. Go back to the verb - divide the complete subject from the complete predicate. (Put a slash in front of the verb. See the example below for a classified sentence.)
A Adj SN V Adv P A OP
6. **SN V P1** The big dog / barked loudly (at the cat). **D**

The Question & Answer Flow Section

There are three additional parts to be added to the Question and Answer Flow. These parts are explained below.

1. **Subject Noun Verb Pattern 1 Check** (Write *SN V P1* in the blank beside the sentence. Be sure to say **check**. You will use the check to check for any new parts that are added to the question and answer flow.)
2. Period, statement, declarative sentence (Write a *D* at the end of the sentence.)
3. Go back to the verb - divide the complete subject from the complete predicate.
(As you say *divide*, put a slash mark before your verb.)

Note: Your sentence should look like this:

	A	Adj	SN	V	Adv	Adv	
SN V	The jet plane / circled awkwardly above.						D
P1							

Introducing Pattern 1, complete subject/complete predicate, and end punctuation

Question and Answer Flow for Sentence 1: The jet plane circled awkwardly above.

- | | |
|---|---|
| <ol style="list-style-type: none"> 1. What circled awkwardly above? plane - SN 2. What is being said about plane? plane circled - V 3. Circled how? awkwardly - Adv 4. Circled where? above - Adv 5. What kind of plane? jet - Adj 6. The - A | <ol style="list-style-type: none"> 7. Subject noun Verb Pattern 1 Check
(Write <i>SN V P1</i> in the blank beside the sentence.) 8. Period, statement, declarative sentence
(Write <i>D</i> at the end of the sentence.) 9. Go back to the verb - divide the complete subject from the complete predicate.
(As you say <i>divide</i>, put a slash mark before the verb.) |
|---|---|

Classified Sentence:

	A	Adj	SN	V	Adv	Adv	
SN V	The jet plane / circled awkwardly above.						D
P1							

Now I will explain each of these parts, one at a time. **For the first new part**, we added the words **Subject Noun Verb Pattern 1 Check**. Listen to the definition for a Pattern 1 sentence. The pattern of a sentence is the order of the main parts of the sentence. **Pattern 1** has only two main parts: the subject and the verb. Adjectives and adverbs add information to sentences, but they are not part of a sentence pattern. A Pattern 1 sentence is labeled *SN V P1* (*Subject Noun, Verb, Pattern 1*).

When you say *Subject Noun Verb Pattern 1 Check* in the question and answer flow, you are classifying the pattern of the sentence. The pattern of a sentence is the order of its main parts. The subject and verb are the main parts of a Pattern 1 sentence.

Remember, adjectives and adverbs are extra words that are not considered essential parts of a sentence pattern because they are used freely with all sentence patterns. To identify all Pattern 1 sentences, you will write *SN V P1* on the line in front of any Pattern 1 sentence.

When you say *period, statement, declarative sentence*, you are classifying the kind of sentence. To identify the sentence as a declarative sentence, you will write a *D* after the period.

When you say *Go back to the verb - divide the complete subject from the complete predicate*, you are identifying all the subject parts and all the predicate parts.

The Question & Answer Flow Section

Now we have two additional parts to be added to the question and answer flow. These parts are questions that will remind us to check for two additional things: an adverb exception and natural or inverted word order.

Adverb Exception: Since the verb usually begins the predicate, an **adverb exception** occurs when you have an adverb immediately before the verb that starts the predicate. To add the adverb exception to the question and answer flow, we will say, “*Is there an adverb exception?*” If there is not an adverb before the verb, you say, “*No.*” If there is an adverb before the verb, we will say, “*Yes – change the line.*” To show the adverb exception, simply erase your slash mark and put it in front of the adverb that is immediately before the verb. (*Go over the information in Reference 11 with students.*)

Reference 11: Adverb Exception Example

From: (The soldiers swiftly / retreated.) To show the adverb exception: (The soldiers / swiftly retreated.)

To add adverb exception to the question and answer flow, say, “*Is there an adverb exception?*” If there is not an adverb before the verb you say, “*No.*” If there is an adverb before the verb, you say, “*Yes – change the line.*”

Question and Answer Flow for Sentence 1: He cautiously advanced through the mine field with his unit.

Natural and Inverted Word Order: Look at Reference 12 as I explain a natural or inverted word order. A **Natural Order** sentence has all subject parts first and all predicate parts after the verb. **Inverted Order** means that a sentence has predicate words in the complete subject. When a word is located in the complete subject but modifies or is part of the verb, it is a predicate word in the complete subject. A sentence with inverted order has one of these predicate words at the beginning of the complete subject: **an adverb, a helping verb, or a prepositional phrase**. Writers use inverted order to give some variety to their sentences. The examples in your reference box will help you remember the three ways to use inverted order in your sentences.

Reference 12: Natural and Inverted Word Order Examples

1. An adverb at the beginning of the sentence will modify the verb.
(Example: Yesterday we / went to the school play.) (We / went to the school play yesterday.)
2. A helping verb at the beginning of a sentence will always be part of the verb.
(Example: Are you / going to the game?) (You / are going to the game.)
3. A prepositional phrase at the beginning of a sentence will modify the verb.
(Example: After the game we / went home.) (We / went home after the game.)

To add inverted order to the question and answer flow, say, “*Is this sentence in a natural or inverted order?*” If there are no predicate words in the complete subject, then you say, “*Natural – No change.*” If there are predicate words at the beginning of the complete subject, then you say, “*Inverted – Underline the subject parts once and the predicate parts twice.*” To show the inverted order, draw one line under the subject parts and two lines under the predicate parts.

The Practice and Improved Sentence Section

Write the title *Practice Sentence* on the top line of your notebook paper. Now copy these labels across the page: **A Adj SN V Adv P Adj OP**. Make sure you leave plenty of room for the words that you will write under the labels. Now I will lead you through the process of using the labels to write a practice sentence.

1. Go to the **SN** label for the subject noun. Think of a noun you want to use as your subject. Write the noun you have chosen on the line *under* the **SN** label.
2. Go to the **V** label for verb. Think of a verb that tells what your subject does. Make sure that your verb makes sense with the subject noun. Write the verb you have chosen on the line *under* the **V** label.
3. Go to the **Adv** label for the adverb. Immediately go to the verb in your sentence and ask an adverb question. What are the adverb questions? (*how, when, where*) Choose one adverb question to ask and write your adverb answer *under* the **Adv** label.
4. Go to the **P** label for the preposition. Think of a preposition that tells something about your verb. You must be careful to choose a preposition that makes sense with the noun you will choose for the object of the preposition in your next step. Write the word you have chosen for a preposition *under* the **P** label.
5. Now go to the **OP** label for object of the preposition. If you like the noun you thought of while thinking of a preposition, write it down *under* the **OP** label. If you prefer, think of another noun by asking *what* or *whom* after your preposition. Check to make sure the preposition and object of the preposition make sense together and also make sense with the rest of the sentence. Remember, the object of the preposition will always answer the question **what** or **whom** after the preposition. Write the word you have chosen for the object of the preposition *under* the **OP** label.
6. Go to the **Adj** label in front of the object of the preposition noun for an adjective. Then go to the object of the preposition in the sentence and ask an adjective question. What are the three adjective questions? (*what kind, which one, how many*) Think of one adjective that answers the adjective questions you asked and which makes sense in the sentence. Raise your hand to tell me your adjectives. (*Allow time for a few students' responses.*) Now I will choose one adjective. Let's write this adjective *under* the **Adj** label. (*Write the adjective choice on the board and have students write it on their papers.*)
7. Go to the **Adj** label in front of the subject noun for an adjective. Then go to the subject noun in the sentence and ask an adjective question. What are the three adjective questions? (*what kind, which one, how many*) Think of one adjective that answers the adjective questions you asked and which makes sense in the sentence. Raise your hand to tell me your adjectives. (*Allow time for a few students' responses.*) Now I will choose one adjective. Let's write this adjective *under* the **Adj** label. (*Write the adjective choice on the board and have students write it on their papers.*)

The Practice and Improved Sentence Section

8. Go to the **A** label for the article adjective in the subject area. What are the three article adjectives again? (*a, an, and the*) Now you will choose one of these article adjectives that makes the best sense in your sentence. Write the article adjective you have chosen *under* the **A** label.
9. Finally, check your Practice Sentence to make sure it has the necessary parts to be a complete sentence. What are the five parts of a complete sentence? (*subject, verb, complete sense, capital letter, and an end mark*) Does your Practice Sentence have the five parts of a complete sentence? (*Allow time for students to read over their sentences and to make any corrections they need to make.*)

Now under your practice sentence, write the title *Improved Sentence* on another line. To improve your practice sentence, you will make one synonym change, one antonym change, and your choice of a complete word change or another synonym or antonym change.

Since it is harder to find words that can be changed to an antonym, it is usually wise to go through your sentence to find an antonym change first. Then look through your sentence again to find words that can be improved with synonyms. Finally, make a decision about whether your last change will be a complete word change, another synonym change, or another antonym change.

Now take time to write an improved sentence. If you need help writing the improved sentence, let me know. (*Always encourage students to use a thesaurus, synonym-antonym book, or a dictionary to help them develop an interesting and improved writing vocabulary.*)

General Q & A Flow Guide #2 for Patterns 2-5

This is a General Question and Answer Flow Guide that will help you remember the order of most of the questions you will use to classify Patterns 2-5.

Pattern 2: To find the direct object

1. Read the sentence: **Mom made a hat.**
2. First, find the subject and verb by following the steps in Guide #1.
3. To find the direct object, say the subject and verb and ask the question “what.”
(Ask “whom” if the direct object is a person.) **Mom made what? Hat**
4. Since a direct object cannot mean the same thing as the subject, you say:
Verify the noun. Does hat mean the same thing as Mom? No. Hat - DO
(Say “direct object” not “DO.”)
5. Label the direct object with a “**DO**” abbreviation.
6. After the direct object is labeled, put a “t” on the verb (**V-t**) to indicate that it is a transitive verb.
A transitive verb is an action verb that has a direct object in the predicate.
7. Shurley Method pattern: **SN V-t DO P2** Regular pattern: **N V N P2**
8. Classify the rest of the sentence by following the steps in Guide #1.

Pattern 3: To find the indirect object

1. Read the sentence: **Mom made me a hat.**
2. First, find the subject and verb by following the steps in Guide #1.
3. Next, find the direct object by following the steps above for the direct object.
4. To find the indirect object, say the subject, verb, and direct object and ask the question “to whom” or “for whom.” (Ask “what” if the indirect object is not a person.)
Mom made hat for whom? Me - IO (Say “indirect object” not “IO.”)
5. Label the indirect object with an “**IO**” abbreviation.
6. Shurley Method pattern: **SN V-t IO DO P3** Regular pattern: **N V N N P3**
7. Notice that the indirect object always comes between a verb-transitive and the direct object.
8. Classify the rest of the sentence by following the steps in Guide #1.

Pattern 4: To find the predicate noun

1. Read the sentence: **A bear is an animal.**
2. First, find the subject and verb by following the steps in Guide #1.
3. To find the predicate noun, say the subject and verb and ask the question “what.”
(Ask “who” if the predicate noun is a person.) **Bear is what? animal**
4. Since a predicate noun must mean the same thing as the subject, you say:
Verify the noun. Does animal mean the same thing as bear? Yes. Animal - PrN.
(Say “predicate noun” not “PrN.”)
5. Label the predicate noun with a “**PrN**” abbreviation.
6. After the predicate noun is labeled, put an “L” on the verb (**LV**) to indicate that it is a linking verb.
A linking verb is a state of being verb (not action) that has a predicate noun in the predicate.
7. Shurley Method pattern: **SN LV PrN P4** Regular pattern: **N LV N P4**
8. Classify the rest of the sentence by following the steps in Guide #1.

Pattern 5: To find the predicate adjective

1. Read the sentence: **Her hair is pretty.**
2. First, find the subject and verb by following the steps in Guide #1.
3. To find the predicate adjective, say the subject and verb and ask the question “what.” **Hair is what? pretty**
4. Since a predicate adjective is an adjective in the predicate that always tells what kind of subject, you say:
Verify the adjective. What kind of hair? Pretty - PA (Say “predicate adjective” not “PA.”)
5. Label the predicate adjective with a “**PA**” abbreviation.
6. After the predicate adjective is labeled, put an “L” on the verb (LV) to indicate that it is a linking verb. A linking verb is a state of being verb (not action) that has a predicate adjective in the predicate.
7. Shurley Method pattern: **SN LV PA P5** Regular pattern: **N LV Adj P5**
8. Classify the rest of the sentence by following the steps in Guide #1.

Question and Answer Flow for Sentence 1: The lumberjacks prepared the tree.

1. Who prepared the tree? lumberjacks – SN
2. What is being said about lumberjacks? lumberjacks prepared – V
3. Lumberjacks prepared what? tree – verify the noun

5. Tree – DO
6. Prepared – V-t

Note: Mark the verb with a V until the DO has been identified. After you verify that the noun is a direct object, go back and mark your verb as transitive (put the "t" on the verb). Always get the core, SN V-t DO, before you classify the rest of the sentence.
